

We have many trees around our campus. I have drawn this picture looking outside boys' hostel. At the back of boys' hostel there is a field which has many big green trees. Many animals sit in cool shade of trees. When I was drawing this picture a donkey was sitting relaxed and looking in front! It was noon time so the Sun was over head. Being month of March it was not so hot so a few pigeons and crows were flying around. When we have meals time the crows gather near School mess to pick up crumbs. Two monkeys are ever in wait to snatch our fruits. We have beautiful peacocks in our campus and slimy snakes too. Our parents always advise us to be careful during

night time as many poisonous insects are around. Boys' hostel is very noisy place and even animals are scared of them. All boys are fearless but alert.
