*Around the world in 7 rounds*

A game show quizzing the kids on their knowledge about people, places and events of the world was organised for students at the interschool as well as intra school level.

At interschool level 22 schools participated in the event of brainstorming to prove their intellectual mettle and prowess. The preliminary elimination rounds were followed by keen contest amongst four finalists. The final tie breaker kept everyone on the edge when the sharper and more avid browsers established their knowledge prowess over others. The rounds included recognition of famous world landmarks, personalities, brands and taglines.

The success of this event is evident from the fact that each class wanted to participate in it. It was reinvented a number of times to engage different classes. During one of the events conducted with class seven, Ms Terena Pope, Principal, Para Vista School, Australia was the guest of honour. She engaged pupils in several rounds on Australia and enriched their understanding about the people and places in Australia. She was very impressed with range of subjects and topics being studied by pupils.
